Thank you. That is reassuring. I hope the 6<sup>th</sup> floor is back to operational status now.

I will get everyone an updated OSDS rationale soon, and an updated New Development rationale will follow once I can follow up with Jenny a bit more. It will probably not be today as I'm in the midst of some urgent non-CZARA matters.

**Subject:** Original 1998 language on Oregon's Additional MMs for Forestry and how these MMs were developed

All,

Attached are a couple documents that our managers in particular may find helpful as they review materials from us. Our management has also requested that we include information right up front that presents the actual condition language in our issue-specific documents.

A subset of NOAA-EPA's 1998 Conditional Approval Findings Document for Oregon with the Additional Management Measures for Forestry highlighted in yellow. The articulation of the condition is very general in the CONDITIONS section, but very specific in the RATIONALE section.

A "Timeline for Oregon's Additional Management Measures for Forestry and Related Documents" assembled from HQ's paper files.
